

DOME Token White Paper

INTRODUCTION

The **DOME** token was created with a mission to establish a community that fosters healthy relationships grounded in mutual benefits across various facets, including financial, social, and emotional. The crypto space is frequently troubled by scams and dishonest practices, making it an unhealthy environment for genuine participants. To counteract these issues, DOME aims to create a safe and supportive environment where trustworthy individuals can connect, share insights, and work together toward meaningful and profitable ventures.

For those interested in joining a community built on integrity and mutual support, DOME provides an ideal space. While the primary focus is on the crypto sector, the community will expand into other domains, hosting multiple projects that members can benefit from based on their level of engagement.

Community Structure

The DOME community will operate on **Discord** with two main groups:

1. **Public Group:** Open to anyone interested in learning more about DOME and interacting with the community.
2. **Private Group:** Exclusive to token holders and paid members. Token holders enjoy free membership, while paying members support the project through contributions.

In the private group, members will work together to develop a sustainable revenue model that supports the project's growth and continuity. The DOME team has outlined several projects, which will be launched as the community grows and reaches a threshold of active members.

Vision

DOME was launched with a commitment to transparency, fair distribution, and community-driven governance. The project aims to empower community members to

collaborate on valuable projects, contribute their unique skills, and drive DOME's development and success.

TOKEN LAUNCH & FAIR MINTING

DOME was launched on **October 31, 2024**, through a fair minting process on the **Kaspa Network**. The fair launch approach included:

- **Zero Pre-Allocation:** No tokens were pre-minted or allocated to team members, advisors, or early investors.
- **No Whitelists:** Access was open to anyone, avoiding any favoritism or special allocations.
- **Community-Driven Approach:** DOME's fair launch embodies a 100% community-centric model, ensuring all participants have an equal opportunity to contribute to and benefit from the project.

This model not only reflects the project's dedication to fairness but also fosters a community that genuinely believes in the project's mission.

ROADMAP

The DOME project is structured around a strategic roadmap aimed at sustainable growth and expanding utility for the token:

1. **Phase 1: Community Building and Growth**
 - a. Set up public and private Discord channels for community engagement.
 - b. Launch campaigns to attract and onboard members committed to creating a positive environment in the crypto space.
2. **Phase 2: Development of Revenue Models**
 - a. Engage the private community in brainstorming and structuring revenue models to ensure the longevity of DOME.
 - b. Begin working on initial projects designed to deliver profits for token holders and active members.
3. **Phase 3: Project Expansion and Utility Integration**
 - a. Launch additional projects, expanding beyond the crypto space into various other sectors.
 - b. Explore partnerships with other projects or organizations that align with DOME's mission and values.

4. Phase 4: Governance and Decentralization

- a. Implement a community-driven governance model to allow token holders to vote on key decisions.
- b. Continue to develop a decentralized structure, empowering the community to drive DOME's future.

UTILITY AND BENEFITS OF HOLDING DOME

Token holders gain several benefits:

- **Access to Private Community:** Free access to the private community for exclusive insights, project involvement, and revenue-sharing opportunities.
- **Profit-Sharing from Projects:** As the DOME project portfolio expands, token holders will have the chance to share in profits from various community-driven projects.
- **Governance Rights:** Holders will have a voice in the direction of the project through voting mechanisms, helping to decide on critical aspects of DOME's future.

CONCLUSION

DOME is a unique project focused on creating a safe, supportive, and profitable community within the crypto space and beyond. Launched through a fair minting process on the Kaspa Network, DOME upholds principles of transparency, equity, and community-driven growth. By bringing together like-minded individuals, DOME is set to redefine the meaning of community in crypto, fostering connections and opportunities that extend beyond traditional financial incentives.

DOME is more than just a token; it's a movement toward integrity and positive growth in the crypto world. Join us as we build a future centered on mutual respect, genuine collaboration, and shared success.
